

-- BOGGS --

The family groups represented in this collection may not be complete, because information was entered bit by bit as I found it or happened upon it; I have not done any systematic research on these families. Because they do not compose whole family genealogies, these listings are arranged differently from most genealogical records or histories. Each listing is a family group, and is arranged and filed alphabetically under the name of the head of the family.

Names are generally in alphabetical order (disregarding spelling variations and middle names), then in approx. chronological order. The first sorting is by surname (mixing together any and all spelling variations), then by given name, then by approximate birthdate (when known) in approximate chronological order. For easier reference, surnames in headings are grouped together under the most common spelling usage that evolved in this geographical location, regardless of individualistic spellings in the records themselves. Cross references are used in most cases where surname spellings substantially vary.

Within the quoted records, the individual spellings have been (mostly) retained because they sometimes provide clues (although in general—but with exceptions—they seem to largely reflect the record keeper's particular orthography and not always, at this early period, any special family preference). Those interested can see the variety and evolvement of a particular name's spelling and the interesting and sometimes amusing attempts at phonetic reproduction. Keep in mind that before names and spellings were standardized, records reflected the individualistic whim of the particular recorder (often two different spellings of the same name within the same document). In addition, all records were handwritten, and sometimes deciphering a handwritten name in early records can be quite challenging! So expect to search under all possibilities of spelling (for both surnames and given names).

Given names are grouped together without regard for middle initials or middle names. Because middle names and/or initials are sometimes used, sometimes not used in various records, it seemed simplest to arrange entries as if the middle names or initials did not exist. Usually all variations of a given name are grouped together as though spelled one way: Jan, Johannes, John, etc. are all grouped as one (but also look under the other forms).

Sources and references are included with each "family" grouping, but may or may not include sources that are cited (or are obvious, such as baptismal records, etc.) within the narrative or listing itself.

As with any compiled genealogical record, researchers should regard this information as leads and clues, and should verify all data with independent research.

I welcome, and would be grateful for, any additions or corrections, especially with source citations.

On 3 Sep 1754, Lambert & Elizabeth Laroe, of Bergen County, NJ [sold] to Thomas Boggs, of same [for] £530, 100 acres purchased by said Laroe from William & Jane van Allen and David & Catherine Hennion 30 Sep 1758 ... corner to Adolpus Shaorts. Signed Lambert (x) Laroe and Elizabeth (x) Laroe. Wit: Joseph Watson, Johannes Ester(lin) and George Ryerse.²

The farm of Thomas Boggs was advertised for sale in *The New York Gazette and the Weekly Mercury* in the 1770s: A noted farm of land lying at Ramapough in the county of Bergen...containing 93 acres of good land well timbered and water'd all in good fence. There is on the premises two bearing orchards of the choicest fruit, also a quantity of good meadow, that will produce 40 loads of good English hay in a year. There is a good dwelling-house, with three rooms on a floor, a fire-place in each, a very good cellar-kitchen, and a good barn...There was a well of the best water close to the kitchen door. The grist-mill with two parr of stone standing on the Ramipough River is one of the best on the continent. There is plenty of water in the driest season...It is situated about 20 miles from Hackensack, 10 or 12 miles from Ringwood and Sterling iron-works, which are good markets for all kinds of produce. The place is very pleasant, and well-situated for a gentlman's seat, a merchant or tavern keeper...The farm was to be sold at public vendue on October 4, 1774. Also to be sold on the said day on the premises were some male slaves and a strong healthy female slave, all of unexpectionable character, together with horses, cows, sheep and hogs.

On 17 June 1767 Conrad & Marriyte Wannamaker, yeoman, of Bergen County conveyed to Peter Wannamaker of the same place, for £225, 78 acres; mentioned corner to Christian Wannamaker. Signed by Conrad Wannamaker (his mark), Marriyte Wannamaker (her mark). Witnessed by William, Isaac, Thomas Boggs, Dederick Wannamaker, Peddter Wannamaker, Lawrence L. Van Boskerk.²

Perhaps Thomas Boggs removed to another property in Bergen County, because he is likely the "Thomas Boggs" listed in the Franklin Township Rateables for 1778 and Jan-Feb 1779 with (1778) 130 acres, 4 horses, 6 cattle, 7 hogs, 1 slave.

Boggs ran a gristmill and operated a nearby tavern during the Revolutionary War and until 1789, when it was deeded to Garret Hopper. During the Revolution the mill was a supplier of ground grain for Washington's troops.³
