

-- Eckerson, Ackerson. J-Z --

The family groups represented in this collection may not be complete, because information was entered bit by bit as I found it or happened upon it; I have not done any systematic research on these families. Because they do not compose whole family genealogies, these listings are arranged differently from most genealogical records or histories. Each listing is a family group, and is arranged and filed alphabetically under the name of the head of the family.

Names are generally in alphabetical order (disregarding spelling variations and middle names), then in approx. chronological order. The first sorting is by surname (mixing together any and all spelling variations), then by given name, then by approximate birthdate (when known) in approximate chronological order. For easier reference, surnames in headings are grouped together under the most common spelling usage that evolved in this geographical location, regardless of individualistic spellings in the records themselves. Cross references are used in most cases where surname spellings substantially vary.

Within the quoted records, the individual spellings have been (mostly) retained because they sometimes provide clues (although in general—but with exceptions—they seem to largely reflect the record keeper's particular orthography and not always, at this early period, any special family preference). Those interested can see the variety and evolution of a particular name's spelling and the interesting and sometimes amusing attempts at phonetic reproduction. Keep in mind that before names and spellings were standardized, records reflected the individualistic whim of the particular recorder (often two different spellings of the same name within the same document). In addition, all records were handwritten, and sometimes deciphering a handwritten name in early records can be quite challenging! So expect to search under all possibilities of spelling (for both surnames and given names).

Given names are grouped together without regard for middle initials or middle names. Because middle names and/or initials are sometimes used, sometimes not used in various records, it seemed simplest to arrange entries as if the middle names or initials did not exist. Usually all variations of a given name are grouped together as though spelled one way: Jan, Johannes, John, etc. are all grouped as one (but also look under the other forms).

Sources and references are included with each "family" grouping, but may or may not include sources that are cited (or are obvious, such as baptismal records, etc.) within the narrative or listing itself.

As with any compiled genealogical record, researchers should regard this information as leads and clues, and should verify all data with independent research.

I welcome, and would be grateful for, any additions or corrections, especially with citations.

Conflicting dates are given for some births and deaths in Jenneke DeBaun's father's Bible record and Jacob T. Eckerson's Bible record.

In his will, dated 10 Nov 1807, pr 23 Aug 1810, Jacob T. Eckerson, or Harrington Twsp., Bergen Co., mentions wife Annantje, eldest son Thomas, dau. Mary (wife of James Quackenbush); second son Jacob ("my house and lot in Spring St., New York City, where he now lives"; youngest son John. Also mentioned are lands in Hampsted, Rockland Co., Harrington Twsp., Bergen Co., and a saw mill. Executors named were friends James Demarest, Thomas D. Ackerson, Jacob T. Ackerson, Edward T. Eckerson. [No witnesses are named in the abstract; perhaps two or three of the "Executors" listed in the abstract were actually witnesses.]

An inventory of the estate (valued at \$760.60) was made 21 Aug 1810 by Peter C. Smith and Jacob Debaun.
