

-- HUYLER --

The family groups represented in this collection may not be complete, because information was entered bit by bit as I found it or happened upon it; I have not done any systematic research on these families. Because they do not compose whole family genealogies, these listings are arranged differently from most genealogical records or histories. Each listing is a family group, and is arranged and filed alphabetically under the name of the head of the family.

Names are generally in alphabetical order (disregarding spelling variations and middle names), then in approx. chronological order. The first sorting is by surname (mixing together any and all spelling variations), then by given name, then by approximate birthdate (when known) in approximate chronological order. For easier reference, surnames in headings are grouped together under the most common spelling usage that evolved in this geographical location, regardless of individualistic spellings in the records themselves. Cross references are used in most cases where surname spellings substantially vary.

Within the quoted records, the individual spellings have been (mostly) retained because they sometimes provide clues (although in general—but with exceptions—they seem to largely reflect the record keeper's particular orthography and not always, at this early period, any special family preference). Those interested can see the variety and evolvement of a particular name's spelling and the interesting and sometimes amusing attempts at phonetic reproduction. Keep in mind that before names and spellings were standardized, records reflected the individualistic whim of the particular recorder (often two different spellings of the same name within the same document). In addition, all records were handwritten, and sometimes deciphering a handwritten name in early records can be quite challenging! So expect to search under all possibilities of spelling (for both surnames and given names).

Given names are grouped together without regard for middle initials or middle names. Because middle names and/or initials are sometimes used, sometimes not used in various records, it seemed simplest to arrange entries as if the middle names or initials did not exist. Usually all variations of a given name are grouped together as though spelled one way: Jan, Johannes, John, etc. are all grouped as one (but also look under the other forms).

Sources and references are included with each "family" grouping, but may or may not include sources that are cited (or are obvious, such as baptismal records, etc.) within the narrative or listing itself.

As with any compiled genealogical record, researchers should regard this information as leads and clues, and should verify all data with independent research.

I welcome, and would be grateful for, any additions or corrections, especially with source citations.

John Huyler was a Captain of the militia during the Revolution. His house was burned by the British and his family was left destitute.

He bought the confiscated land of John Eckerson in 1780.

Jno. Huyler was listed in the 1780 Franklin Township Rateables with 63 acres improved land valued at £44.

In the Tappan Ref Ch record of the (2) marriage, they were: "John Huyler and Annatje Bogart, widow of Cornelius Bogart, both of Klooster."

Peter Huyler probably lived in the sandstone house at what is now 50 County Road in Cresskill, Bergen County, NJ, built 1770-1805 (datestone 1836). This was said to have been part of the property in 1770 of John Eckerson, confiscated in 1779 and sold to Captain John Huyler in March 1784 (he lived elsewhere).¹

On 3 May 1792 (recorded 2 July 1805, Bergen Co. V:226) Hendrick Ferdon of the Precinct of Hackensack, conveyed to John Huyler of the same place, for £20, 5 acres of woodland in Closter, beginning at line of John Huyler; mentioned woodland formerly belonging to John Mauris Goetschius and now to said John Huyler. Signed by Hendrick Ferdon. Witnessed by Timothy Miller, Abraham Ackerman.²
