

-- SCHOLL, SCULL --

The family groups represented in this collection may not be complete, because information was entered bit by bit as I found it or happened upon it; I have not done any systematic research on these families. Because they do not compose whole family genealogies, these listings are arranged differently from most genealogical records or histories. Each listing is a family group, and is arranged and filed alphabetically under the name of the head of the family.

Names are generally in alphabetical order (disregarding spelling variations and middle names), then in approx. chronological order. The first sorting is by surname (mixing together any and all spelling variations), then by given name, then by approximate birthdate (when known) in approximate chronological order. For easier reference, surnames in headings are grouped together under the most common spelling usage that evolved in this geographical location, regardless of individualistic spellings in the records themselves. Cross references are used in most cases where surname spellings substantially vary.

Within the quoted records, the individual spellings have been (mostly) retained because they sometimes provide clues (although in general—but with exceptions—they seem to largely reflect the record keeper's particular orthography and not always, at this early period, any special family preference). Those interested can see the variety and evolvement of a particular name's spelling and the interesting and sometimes amusing attempts at phonetic reproduction. Keep in mind that before names and spellings were standardized, records reflected the individualistic whim of the particular recorder (often two different spellings of the same name within the same document). In addition, all records were handwritten, and sometimes deciphering a handwritten name in early records can be quite challenging! So expect to search under all possibilities of spelling (for both surnames and given names).

Given names are grouped together without regard for middle initials or middle names. Because middle names and/or initials are sometimes used, sometimes not used in various records, it seemed simplest to arrange entries as if the middle names or initials did not exist. Usually all variations of a given name are grouped together as though spelled one way: Jan, Johannes, John, etc. are all grouped as one (but also look under the other forms).

Sources and references are included with each "family" grouping, but may or may not include sources that are cited (or are obvious, such as baptismal records, etc.) within the narrative or listing itself.

As with any compiled genealogical record, researchers should regard this information as leads and clues, and should verify all data with independent research.

I welcome, and would be grateful for, any additions or corrections, especially with source citations.

John Scull adopted the English spelling of his surname: Scull.¹

John Scull sold his land at Hempstead, L.I., NY in 1691 and moved by 1695 to West Jersey, where he was a whaleman, a Quaker and a principal contributor to the old Cedar Meeting House. On 29 Nov 1695, being described as late of Long Island, he bought from Thomas Budd of Philadelphia, 250 acres at Great Egg Harbor, in two lots. He later acquired other land. In May 1701 he was appointed special tax assessor for Egg Harbor. On 26 Jan 1717 he was commissioned Justice of the Peace and of the Courts of Gloucester Co., NJ.¹

His will was dated 15 March 1745. He gave each of his children a proportionate share of his real and personal estate, and to his youngest sons, Recompense, Gideon, and Isaiah, all his "Right to Absecom Beach." He made his wife his sole executor.¹
